6 - 7 hrs journey

Life in countryside is still the same after the great development of tourism industry: harvesting olive, almonds or carobs by hand, baking bread....that is what I offer you on this tour: the possibility of visiting a farm and bake your own bread to eat it afterwards with olive oil in a delightful experience called 'tiberna' in Portuguese. In Portugal people were very poor and couldn't afford to put extra things such as tomatoes on top. As a result, they just ate the bread with garlic and olive oil." The things you learn in this workshop are easy enough to make back at home. So, come and try! In the afternoon, we'll go by 'train' to one of the famous eastern islands, also called the Anchor's Beach.

THE BEACH TOUR

SUNDAYS & WEDNESDAYS

Price per person:

45€

Come and discover the finest beaches with extremely clear water, spectacular cliffs with hidden creeks, grottoes that seem to be a work of art, and endless sandy beaches protected by dunes. The mild Atlantic breeze will help you to enjoy the day to the fullest! Possibility of joining a grotto tour (not included) in the most famous beach of the world-Lagos area! Please remember to bring a hat, beach towel and sun lotion.

ARTS & CRAFTS

SATURDAYS

4 hrs journey AM

The Loulé farmers market is an enjoyable, memorable, down to earth shopping experience. Every Saturday the local Farmers come out early and fill the area around the municipal market with their fabulous goods. But on this tour you'll have a closer contact with craftsmen, from handicraft to ceramics, see them at work and taste some local products as honey, jam and liqueurs. In the continuation of our art discovery, a visit to the magnificent church of Saint Laurence in Almansil will be a chance to know more about 'azulejo' and barroque in Algarve.
